

Jessica Lukius

How did you hear about the DASB Senate?

I have a cousin who was chair in one of the committees

If you have held a DASB Senate position in the past, what was your position?

have not been a senator before, I was just interning, then became social media officer.

Why do you want to join the DASB Senate, and what do you hope to achieve?

I hope I can be a senator that DASG interns or De Anza students will not be afraid to reach out to, so that I can become a voice for them. I hope to show progress and develop my skills, to become more capable in working in teams.

What are some of the skills and experiences that you will bring to the DASB Senate?

I am grateful to have the opportunity to experience being a product photographer for two years, having more than 400 clients. this allowed me to improve my photography skills, but more importantly, it made me a more capable person in communicating with a lot of different people. because of my past collaborations with other photographers, I am used to work in a team, I love teamwork; I hope to progress on my abilities to work as a team. I am also experienced in social media management as I have been a marketing and social media manager for different online brands, I hope to work more in the marketing and communication committee where I can grow and expand my skills.

What other commitments do you have and how will you manage your time?

I am motivated to join and become part of DASG senators, and with that being said, I am confident that my willingness will keep me focused and participative until the very end. I will not lose hope, lose interest, nor become lazy to serve DASG in the middle of even the hardest quarter of my college life. I find that writing a journal and having a schedule is really effective to manage time; with this I have never missed an assignment nor a quiz.

Additional Comments (maximum 200 words)

I really hope that being a part of DASG senator will not only benefit me as an individual, but I can have an impact on DASG and to De Anza students as well.

What student concerns do you feel the DASB should address?

a way to become more approachable, and more communicative towards the rest of the De Anza student population. a way to become more engaging I guess.
