

## Hiring Committee, Vice President of Instruction (3 faculty needed, including 1 PT faculty)

13 Faculty volunteers, including 2 PT faculty member

---

### **Tim Harper**

SSH - Social Sciences & Humanities

Part Time

I have been in executive leadership positions within educational programs that had between 100-300 teachers and served 1,000+ families. I believe in ethical leadership and seek to serve on this committee to use my experiences to ensure that those that seek to lead De Anza base their work in equitable and ethical leadership.

--

I am committed to the core belief that in order to ensure the amelioration of the inequitable outcomes of people experiencing oppressions within our society, we must create systems of education and care across all sectors of our society that end the oppressive systems which persist inequities.

---

### **Sundararajan Arabhi**

PSME, Mathematics

Part Time with REP

First of all, thanks for giving part-timers a say in various important decision making processes. Some of us part-timers have devoted most of our professional careers teaching at community colleges. I have taught Mathematics part-time at SJSU for 12 years, at Foothill College for 2 years and De Anza since 2014 (8 years). I bring to this committee many years of experience in teaching at a community college. Having been born in Brazil, raised in an academic residential campus in India and having done middle school education in Puerto Rico, I have interacted with diverse people from different countries, beliefs, cultural values, economic status, and professions from a very young age. With my background in teaching diverse student population over the past 20 years and interacting with different instructors and staff at school, as well as at numerous community college math conferences and workshops, I believe I will make a good candidate in the hiring committee for vice president of Instruction.
